

Candidate for School Board Position 2: Debra McCullough

1. I want to ensure the best possible educational outcome for all students. I have grandchildren attending the Wellsville Public Schools and feel it is the responsibility of the community patrons to seek what it takes to keep a school system functioning at a high level of efficiency.

2. I am blessed to have grown up in a community that has made our school a top priority. I believe the role of a school board member is to look at the overall view of the school and make decisions that are sometimes easy and sometimes very difficult. We must be open-minded to what will be best for the whole school, not just a part of it. I bring knowledge of working with budgets and the financials from working in recreation for 20 years. I have also seen the benefits for a community and school through networking for all ages. Furthermore, Education for all students should be at the top of the list. The school board member is also the voice of the community in how their taxes are being used to achieve what is best for the students, staff and the facilities.

3. Special Education
 - Why Wellsville has a high turn around in staff?
 - Success of students at all levels of education
