

Candidate for School Board Position 1: Michelle Hutchinson

Thank you for the opportunity to share why I am hoping to serve on the school board. I am seeking this public position because I love Wellsville schools, students, teachers, and staff and I'm eager to serve our school district in this way. Prior to the pandemic, I was a substitute teacher for several years. This gave me first-hand experience in our classrooms. Additionally, it has allowed me to form relationships with our teachers, staff, and students. Because our community is growing and is anticipated to continue growing, I value the feedback from those who understand where the needs are and how to continue to foster our educational environment. I have a strong faith and care about the integrity of our Wellsville school district. My prayer in serving in this public position is to be of service to help our schools continue to grow and deliver the best education to our students.
